Inspiring educators to reimagine learning

Professional learning is one of the most important investments you can make to support the growth of your teachers and the impact they can have on students. Discovery Education provides a range of learning opportunities for teachers to incorporate its products across all subjects, equitably and with great impact.
Continuity of Learning
Learn strategies and techniques to support all students across the continuum of remote, hybrid, and in-person learning environments.

Equity
Explore channels and resources within our learning platform and develop strategies to create equitable experiences for all students.

STEM*
Use our platform and STEM Connect to build and implement problem-driven, interdisciplinary lessons based on the 4Cs framework. *Requires STEM Connect

SEL
Support students’ social and emotional well-being while simultaneously addressing academic content and skills using DE resources and support.

Innovative Practices
Further develop teaching practices to create flexible learning experiences that ensure students are future-ready using DE resources and strategies.

Sessions Focused on Critical Topics in Education

Dissent, Equity, and Inspiring Change
From the patriots of the American Revolution to those seeking social justice today, groups throughout history have raised the banner of protest. The resources in this channel help students see how one single voice can change a nation and the world for the better.

Flexible Implementation Options
These professional learning sessions include a combination of whole group and tailored instructional support sessions for up to 50 remote participants or 25 in-person participants, as conditions permit. Instructional support sessions can include 1:1 coaching sessions, grade-level team planning, remote teaching support and more.
