

## Connecting Students K to Careers

The STEM Careers Coalition connects classrooms with industry at scale, supporting equitable access to education and empowering all students with skills, experiences, and resources to inspire career exploration and foster career readiness to help prepare a future-ready workforce. By delivering timely, relevant content and real-world career readiness tools, we empower the next generation of innovators, creators, and leaders to pursue meaningful pathways across a wide range of in-demand fields.

### STEM Career Explorations

Give students living proof of the many ways they can turn STEM skills into career success! Meet real-world STEM professionals and explore exciting career paths that are as inspiring as they are attainable.

### Student Activities

Engage K–12 students in the power of STEM innovation with a series of thought-provoking, ready-to-use activities that feature key STEM skills and a step-by-step guide for implementation.

### Additional Resources

Put students on the path to STEM success with fun family activities that promote dynamic distance learning using nothing more than common household items.
